Michigan has issued a Request for Input (RFI) to collect feedback from a wide variety of individuals on how to best serve individuals that are eligible for both Medicaid & Medicare (Dual Eligibles).

MDCH wants to hear your suggestions, concerns and anything else you'd like to share from any interested party, including those who are eligible for both Medicare & Medicaid, their allies and advocates, providers of services and potential contracting entities.

**To ensure high-quality, effective services continue to be provided to the Dual Eligibles we serve, LifeWays requests your attendance at one of our upcoming educational forums to find out how to respond to the RFI and how you can share your thoughts with MDCH!**
